Hello,

As a 68 year old citizen of Oregon, who moved here in 1966, I have watched the continued, and embarrassing lack of attention to our beautiful Willamette River. The fish are essentially inedible, even here upstream from Portland, in Corvallis, Oregon. Some friends refuse to kayak with us during the Summer because of toxins allowed from polluters.

My specific comments regarding your Portland Willamette clean-up are that they are vastly undersized in scope, and further allow the perpetrators of pollution to escape justice. I would like to see your proposal include the 1000 acres decontaminated, as suggested by Willamette River Keepers, the inclusion of a rapid return to "edible fish status" for fish caught in our river, and the companies/ corporations cited as responsible paying the entire cost.

In my opinion, the legacy left Portlanders within our beautiful city, and River of pollutants so deadly are comparable to war crimes. I hope you take this seriously, because the decisions you make could make a statement to not only Oregonians, but to the Nation. Thank you for your time. (b) (6)
